

Women's History Month Essay Contest

Women have not always been recognized for their contribution in the fields of Science, Technology, Engineering, and Mathematics (STEM). This essay contest challenges students, girls and boys, to discover and publicize women who made a difference in the sciences and tell why the woman they researched is significant to them.

Open to male & female students in grades 6-8

Deadline for submissions: February 23, 2018

For complete details and contest guidelines
